Diaspora Mittendrin: Empowerment for Black Migrants

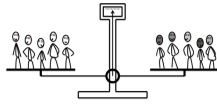

Have you been treated worse than others in your everyday life, in your job or by the public authorities just because you have a different skin colour or other nationality – or do you know someone who has experienced this?

This is discrimination! You do not need to accept this treatment! It is your right to feel maltreated and to defend yourself against this!

Black people face a specific kind of racism. For this reason, BDB developed the project „Diaspora Mittendrin“ to address the special situation of Black migrants, offering the following services:

Counselling: We listen to you and search for a solution with you – free of charge. We come to your home or meet you in our office. Counselling is offered by Black people with a migrant background.

Workshops und Trainings: to empower and strengthen you and your community in facing issues of discrimination! Tell us what you need! We offer workshops and networking opportunities free of charge.
